

**Third Grade**  
**2019-2020 First Nine Week**  
**Math Study Guide**

**Focus Objectives:**

**3.OA.8**-Solve **two-step word problems** using addition, subtraction, and multiplication, representing problems using equations with a symbol for the unknown number.

**3.NBT.2**- Add and subtract whole numbers up to and including 1,000.

- Use estimation to assess reasonableness of answers.
- Model and explain how the relationship between addition and subtraction can be applied to solve addition and subtraction problems.
- Use expanded form to decompose numbers and then find sums and differences

(place value and rounding have been incorporated into this standard)

**3.NBT.3**- Generalize place value understanding for multi-digit numbers has been incorporated into this standard.

**Examples:**

1. What is the value of x in the equation?

$$834 - x = 667$$

- A. 167      B. 267      C. 1,501      D. 1,000

2. The chart shows how many students were in school each day.

Students in School

Monday	763
Tuesday	837
Wednesday	468
Thursday	764
Friday	634

How many fewer students were in school on Wednesday than on Friday?

- A. 1      B. 296      C. 166      D. 369

3. Look at the chart.

AR Points

Name	Points
Frank	436
Bettina	678
Juan	387

Which of the following is true about the AR points?

- A. Bettina scored 242 AR points less than Frank.
- B. Juan scored 191 AR points less than Bettina.
- C. The sum of all the AR points is 1,501.
- D. Juan scored the most AR points.

4. Sam read 864 pages in his book in two days. He read 452 pages on the first day. How many pages did he read the second day?

- A. 1,316                      B. 412                      C. 312                      D. 534

5. Which expression can be used to check the sum of  $67 + 35$ ?

- A.  $102 + 77$                       B.  $102 - 35$                       C.  $67 - 35$                       D.  $35 - 67$

6. What is the value of  $m$  in the equation?

$$357 + m = 834$$

- A. 377                      B. 577                      C. 985                      D. 477

7. What is the value of  $g$  in the number sentence?

$$45 = 78 - g$$

- A. 33                      B. 123                      C. 45                      D. 80

8. Allison has 52 stuffed animals. Her mother gave her 67 more stuffed animals. Which fact can Allison use to find out how many stuffed animals she has in all?

- A.  $67 + 52 = 119$                       B.  $52 + 15 = 67$                       C.  $67 + 10 = 77$                       D.  $67 - 52 = 15$

9. Mike has two pets. His dog weighs 197 pounds. His cat weighs 58 pounds. How much does the dog and cat weigh together?

- A. 250 pounds                      B. 255 pounds                      C. 141 pounds                      D. 139 pounds

10. There were a total of 947 people at the baseball field. There were 213 people at the first game. 679 people at the second game. The rest of the people were at the third game. How many people were at the third game?

- A. 55                      B. 1,839                      C. 892                      D. 734

11. Elena had 40 stickers. Her aunt gave her 6 more stickers. Elena then gave away half of the stickers her aunt gave to her. How could you find the number of tickets Elena now has?

- A.  $40 + 6 + 20 = 66$                       C.  $40 + 6 - 6 = 40$   
B.  $40 + 6 - 3 = 43$                       D.  $40 + 6 = 46$

12. Mike has 783 books in his comic book collection. What is this number rounded to the nearest hundred?

- A. 700                      B. 800                      C. 780                      D. 790

13. Mary has \$503. She received \$85 more. Which equation shows a way to estimate the total amount of money Mary has?

- A.  $\$500 + \$80 = \$580$                       C.  $\$500 + \$90 = \$590$   
B.  $\$600 + \$90 = \$690$                       D.  $\$400 + \$90 = \$490$

14. When rounding to the nearest ten, which of the following numbers will not round to 80?

- A. 87                      B. 83                      C. 78                      D. 84

15. Marie collected about 700 bottle tops for her collection. Rounded to the nearest hundred, which choice could be the exact number of bottle tops Marie collected?

- A. 754                      B. 648                      C. 687                      D. 782

16. Round 368 to the nearest 10?

- A. 370                      B. 400                      C. 300                      D. 360

17. Four students are reading a book. The chart shows the number of pages each person has read.

Sally	573
Marc	665
Trina	528
Nick	439

Which student read about 500 pages?

- A. Sally                      B. Marc                      C. Trina                      D. Nick

18. Sam has 4,308 coins in his coin collection.  
How would you write the number 4,308 in expanded form?

- A.  $400 + 30 + 8$                       C.  $4,000 + 30 + 8$   
B.  $400 + 300 + 8$                       D.  $4,000 + 300 + 8$

19. What is another way to write 6,832?

- A. six hundred eight hundred thirty two  
B.  $600 + 800 + 30 + 2$   
C. six thousand eight hundred two  
D.  $6,000 + 800 + 30 + 2$

20. $\begin{array}{r} 900 \\ - 378 \\ \hline \end{array}$	21. $\begin{array}{r} 721 \\ + 189 \\ \hline \end{array}$	22. $305 - 129 =$  23. $403 + 298 =$
--	--	--

24. What is 100 more than 5, 683?

A. 5,783                      B. 6,683                      C. 5,583                      D. 6,567

25. What number is 60 less than 873?

A. 933                      B. 813                      C. 973                      D. 863

26. What is another way to write  $79 + 25$ ?

A.  $70 + 20 + 90 + 50$                       C.  $7 + 9 + 2 + 5$   
 B.  $70 + 20 + 9 + 5$                       D.  $790 + 250$

27. Look at the numbers:

5, 895
5,986
6,958
6,859

How would you order the numbers from least to greatest?

A. 5,895, 5,986; 6,958; 6,859  
 B. 5,986; 6,958; 6,859; 5,895  
 C. 5,895, 5,986; 6,859; 6,958  
 D. 6,958; 6,859; 5,895; 5,986

28. Which of the following statements is true?

A.  $5,890 < 5,888$     B.  $5,890 = 5,888$     C.  $5,888 > 5,890$     D.  $5,888 < 5,890$

29. Look at the chart. Who has the most stickers?

Mark	Gloria	John	Antonio
4,793	7,860	7,906	7,860

A. Mary                      C. Gloria  
 B. John                      D. Antonio

Answers

1. A	2. C	3. C	4. B
5. B	6. D	7. A	8. A
9. B	10. A	11. B	12. B
13. C	14. A	15. C	16. A
17. C	18. D	19. D	20. 522
21. 910	22. 176	23. 701	24. A
25. B	26. B	27. C	28. D
29. B
